KEY SERVICES PROVIDED

Validated studies show that our programs promote peacebuilding that reduces addiction, violence, and the high school dropout rate.

Peer Mentor brings young people on a positive path together with struggling students. Peers inspire peers to take charge of their lives and make a difference.

Neighborhood Enrichment connects adults from local and business communities to mentor, organize service-learning projects, and lead young adults and teens toward college and quality careers.

Focus Family is uniquely positioned to serve parents alongside their developing children. This program strengthens families by helping them to develop positive relationships with their children. Families develop core life skills to reduce the impact of adverse childhood experiences for their children and their children's children.
